KRAKEN FORGE DAY 2: USERLAND AND BEST PRACTICES

USERLAND AND BEST PRACTICES

OBJECTIVES

- Use the internal debugging tools to step through code.
- Understand when and how to apply debugging flags.
- Understand the principles of unit testing and be able to apply them using Mocha.
- Demonstrate test coverage.
- Understand the components of an Express.js app.
- Understand when to use nconf and when not to.
- Integrate Dust.js templates into an Express.js app.
- Manage user sessions in Express.
- Write sophisticated asynchronous control flows with clarity.
- Generate application scaffolding with Yeoman.
